

Caring for Business Landscaping and Office Plants in and around the Milton Keynes area.

Method Statement

We strongly believe the service we offer to our clients is second to none and we work hard to ensure it remains the best available.

Our mission at Bumble Bees is very simple:

“We aim to give our clients the best and most comprehensive maintenance service possible.”

We do this by working to our own strict guidelines;

1. The comprehensive service we offer ranges from basic litter removal through to tree surgery, snow clearing, gritting and emergency call-out work.
2. All work is carried out meets and surpasses British Standards Institute guidelines (where applicable).
3. All grass is cut with the correct machinery and under the correct conditions at the agreed intervals with fully trained operatives.
4. Chemical application will only be carried out with certified personnel and under the strict guidelines laid down by MAFF.
5. All tree work will be carried out by fully trained and licensed operatives and the option of a tree survey will be offered to the client, with a maintenance plan for 1, 5 and 10 year intervals.
6. Interior plants will be maintained at specified intervals agreed with the client as to cause minimal disruption to the office environment.
7. All our equipment is regularly and professionally serviced and maintained to the highest standard to ensure operator safety and to maintain work quality.
8. All staff are trained in house to ensure that they meet the quality standards we and our clients expect.
9. We work very closely with our clients to ensure their need and those of the contract are met at all times.
